

# Amazing Grace

Arranged by Graham Lloyd

Specially arranged in memory of Helen Gray in gratitude for the countless decades of Service she has provided both the Victorian Bands League (specifically) as well as the Australian National Band Association. You are sorely missed.

## CONDUCTOR'S NOTES:

Conductor, please, please take note of the tempi and conduct this arrangement at the indicated tempi. This work has been arranged with the indicated tempi in mind. This tempi has dictated the melodic, harmonic and counter-melodic devices used in the arrangement. To take the music faster or slower than the indicated tempo is just plain foolish and will result in a comical rendition of the work...not what would be expected on an occasion such as Helen's funeral.

The bagpipes, vocalist, choir and rhythm section parts are all optional. Helen did request I include a bagpipe part in this arrangement as she was partial to having a piper play at her funeral, so I encourage the sourcing of a player when this arrangement is eventually required. The pipes part has been written out because I wish to highlight to you that the ending sees specific notes written for the piper that must be played to combine with the chosen harmonies and melodic line that complete the work.
